

Material Safety Data Sheet

ISO9001-2000: Quality Management System Certification

一: Manufacturers and product information

Product Name: Painting plastic
Code: JND-308

二: Identifying data elements

Chinese name	English name	Weight percent composition
Water-based acrylic resin(CAS NO. 9003-01-4)	Water-based acrylic resin(CAS NO. 9003-01-4)	19%
Calcium Carbonate(CAS NO.:471-34-1)	Calcium Carbonate(CAS NO.:471-34-1)	56-60%
Additive	Additive	1-2%

三: Hazard identification information

With the crisis should be the most important key results	Effect of health hazards: No
	Environmental Impact: Environmental security and health
	Physical and chemical hazards: Non-combustible liquid and steam
Important symptoms: No	
Articles harm: No	

四: Emergency measures

<p>Drive where different methods exposed:</p> <p>Devour: 1: Patients will moved to Department of fresh air 2: Immediate medical attention</p> <p>Skin contact: 1: No stimulation, no harm 2: Contaminated clothing should be cleaned using</p> <p>Contacted: 1: Immediately eyelid brushes with tepid water to ease the 20-minute topical. 2: Immediate medical treatment.</p>
--

五: The disposal method

<p>Wastewater Treatment:</p> <p>1: Effluent standards: Consistent with the provisions of discharge "effluent discharge Standard"</p> <p>2: Wastewater Disposal: (1) Physics (2) Chemical (3) Biological</p>
<p>Wastewater Treatment: 1: Waste refers to waste paint and paint residue. 2: The local government will send a specd waste treatment plant for waste disposal.</p>

六: Transport removal

Transport handling Product not inverted, and threw no shelter.
--

七: Storage

Products stored in cool, dry place ventilation
--

八: Storage

Storage Products Subject to the above conditions, period from the date of production for 12 months
--

九: Regulations

Products meet standards GB18582-2001 standard
